

BONDLOC
FORMULAS THAT WORK

B390

TWO PART INSTANT ADHESIVE

Bondloc B390 and B390F are our **2 COMPONENT** large gap filling adhesive, fast curing coupled with high strength and excellent clarity.

- Complete cure of excess adhesive
- Ideal for overhead & vertical application
- Works well on porous substrates
- Precision control & dispensing
- Excellent bonding characteristics on a wide range of substrates: - metals - most plastics like PVC, ABS, PC, PBT - rubber - porous / absorbent materials such as wood, paper, cardboard, leather and fabric.

	B390	B390F
Colour	Clear	Clear
Viscosity	Gel	Gel
Curing Time		
Base	Ethyl	
Fixture Time	90-150 sec	
Temperature Resistance	-40°C to +80°C	-40°C to +80°C
Gap Filling	Up to 6mm	Up to 6mm

PACK SIZE

10g supplied with a plunger and 3 nozzles

B390F

ELASTIC

HIGH ELONGATION

FLEXIBLE ADHESIVE

CURING PERFORMANCE

Under normal conditions, the atmospheric moisture initiates the curing process. Although full functional strength is developed in a relatively short time, curing continues for at least 24 hours before full chemical resistance is developed.

KEY FEATURES

- Gap fills up to 5mm
- Non drip formulation
- Excellent cosmetic appearance
- Low bloom formulation
- Works with a variety of substrates
