

Technical Data Sheet

B7785 Dry Lube Chain and Cable

PRODUCT DESCRIPTION

B7785 is a dry grease based lubricant enhanced with PTFE with strong adhesive properties designed for application to chains and cables. It applies wet enabling penetration into links before thickening and drying.

Supplied in a 360 degree rotational can which includes the permanently attached "Easy Straw" for ease of use and convenience.

USEFUL NOTES

- High PTFE content for reduced drag and high lubricity for long lasting lubrication
- Contains extreme pressure and anti-wear additives for improved load resistance.
- Anti-corrosive additives for superior metal protection.
- Highly water resistant.
- Long lasting.
- Penetrates and thickens.
- Anti-fling formula.
- Precision spray application minimises wastage.

APPLICATIONS

B7785 has been primarily designed for use on industrial chains and cables but can be used on cycle chains and all moving metal parts, to improve lubrication and help prevent malfunction and seizure.

INSTRUCTIONS FOR USE

Shake can thoroughly before use. Spray from 15-30cm on to the chain, allow a couple of minutes for the lubricant to penetrate and thicken.

STORAGE

Store product in a dry location and out of direct sunlight.

TECHNICAL FEATURES

Appearance	Viscous grease
Specific gravity	0.80 @ 20°C
Flammability	Extremely flammable, flash point below -20°C
Service Temperature	Designed for use at ambient temperatures.
Odour	Pleasant fragrance
Contents / Composition	A solution of mineral based lubricants, viscosity modifiers, anti-wear and extreme pressure additives and PTFE in an aliphatic hydrocarbon solvent and butane/isobutane/propane propellant.
Solubility	Insoluble in water
Storage	8 °C to 20 °C

HEALTH & SAFETY

This technical information sheet does not constitute a Safety Data Sheet (SDS). Before using this product ensure you have read and fully understood this products SDS.

PACKAGING FORMAT
